DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by EP 1174306.

3. Claims 1-4 and 11-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Fryer.

Fryer discloses the claimed invention including operator stations on opposite longitudinal sides of a vehicle with electronic equipment for each station and a space there between. Both longitudinal sides are associated with a single raised platform. For claims 3 and 4 it is considered to be the “first” raised platform and for claims 11 and 12 it is considered to be the “second” raised platform as broadly as recited. The platform is raised and planar and, as shown in Figure 1, it includes a fender well portion.

Allowable Subject Matter

4. Claims 5-10 and 13-18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The cited reference relate to the claimed invention.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joseph D. Pape whose telephone number is (571)272-6664. The examiner can normally be reached on Tuesday-Friday 6:30 AM-3:00 PM.
